

**AMENDMENTS TO THE CLAIMS**

**Claims 1-32 (Canceled)**

**Claim 33 (New):** An electronic display for presenting data from a vertical speed source aboard an aircraft, wherein said display comprises:

a fractional section of an arcuate vertical speed indicator scale;

a vertical speed indicator marker;

wherein said fractional section has non-linear graduations marked thereon in the vicinity of said vertical speed indicator marker; and

TCAS resolution advisory indicators along a periphery of said vertical speed indicator scale wherein said TCAS resolution advisory indicators are shown during a TCAS resolution advisory condition, wherein said TCAS resolution advisory condition triggers an increase in size of said electronic display, and wherein an attribute of said vertical speed indicator marker changes to match an attribute of said TCAS resolution advisory indicators during the advisory condition.

**Claim 34 (New):** The display according to claim 33 wherein the attribute is a color.

**Claim 35 (New):** An electronic display for presenting data from a vertical speed source aboard an aircraft, wherein said display comprises:

a fractional section of a curved vertical speed indicator scale;

a vertical speed indicator marker comprising a pointer and a digital numeric display, showing a vertical speed of the aircraft as indicated by the vertical speed source, wherein said fractional section of said vertical speed indicator scale shows nonlinear graduations marked thereon in the vicinity of said vertical speed indicator marker, wherein said fractional section of a vertical speed indicator scale shown by said electronic display will change relative to the vertical speed depicted by said vertical speed indicator marker; and

TCAS resolution advisory indicators along a periphery of said vertical speed indicator scale shown during a TCAS resolution advisory condition wherein said TCAS resolution advisory condition triggers an increase in size of said electronic display and changes an attribute

of the vertical speed indicator marker to visually correspond to an attribute of the TCAS resolution advisory indicators during the advisory condition.

**Claim 36 (New):** The display of claim 35 wherein the attribute is a color.
